Skills

- HTML
- CSS
- JavaScript
- React
- NextJs
- Sass
- nodejs
- firebase
- TypeScript
- MongoDB
- React Native

Profile

Hello, I'm Kemal. I care my future and want to build it on software programming. I did a lot of projects. I used HTML, CSS, Sass, Figma, Tailwind, JavaScript, React, TypeScript, React Native and especially NextJs for frontend - Nodejs for backend and MongoDB - Firebase for database. I do not like to give up and never get tired of working if I feel myself part of the team. I am confident and prone to teamwork, good at team harmony, project management, leadership.

Projects

Personal Website ⌞⌝
A **Nextjs** website with 3D modeling (**Blender**). It is my first website experience.

Rock Scissors Paper ⌞⌝
A **Nextjs** project with registration pages and **Firebase** storing.

Website for personal usage ⌞⌝
A **Nextjs** project (not published) that has translator and personal wallet for **metamask**. Lots of **api** usage and **MongoDB** storing
